

MS Foundry Hands-on Activity Report

Name: Suyog Yadav

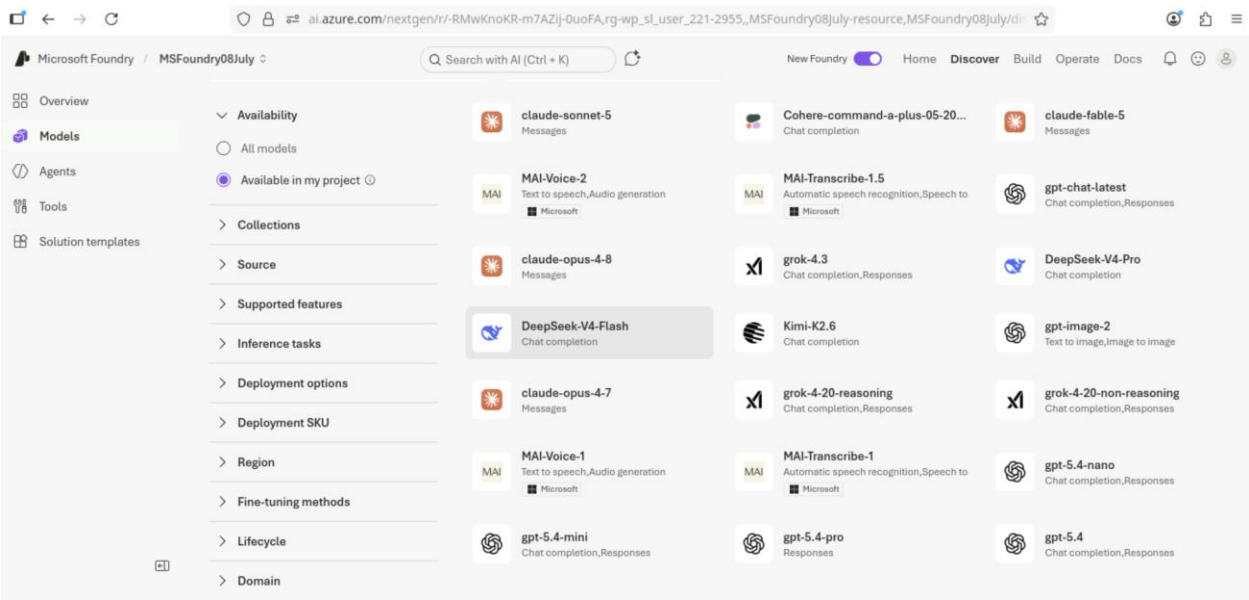

Date: 08 July 2026

Task 1: Explore Models in MS Foundry Model Catalogue

Activity Performed

- Logged in to Azure AI Foundry.
- Navigated to **Model Catalog**.
- Explored different available models such as GPT models, open-source models, and other foundation models.
- Reviewed model capabilities, pricing, and deployment options.

Task 3: Delete the Deployed Model

Activity Performed

- Navigated to **Deployed Models**.
- Selected the deployed GPT-5 model.
- Deleted the deployment successfully.
- Verified that the model was removed from the deployment list.

Screenshot 4: Model Deletion Confirmation

Task 4: Delete Resource Group from Azure Portal

Activity Performed

- Logged in to the Azure Portal.
- Opened **Resource Groups**.
- Selected the resource group created for the exercise.
- Deleted the resource group and confirmed the deletion.
